

Study Skills

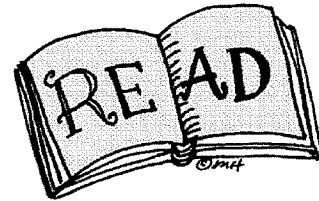

Grades 6

Study Skills provides our students in 4th through 8th grade with the opportunity to learn study skills, test-taking strategies, research techniques, and writing skills. The text for this course is called *Simple Solutions - Study Skills*. Students in these grades will have an assignment to complete for each class. These assignments **MUST** be completed to obtain a passing grade for the quarter.

To be prepared for class in 6th-8th grade, students must bring their Simple Solutions - Study Skills text, a silent reading book, and pencil case each week. **ANY WORK NOT COMPLETED DURING CLASS WILL BE ASSIGNED AS HOMEWORK, DUE FOR THE NEXT CLASS.**

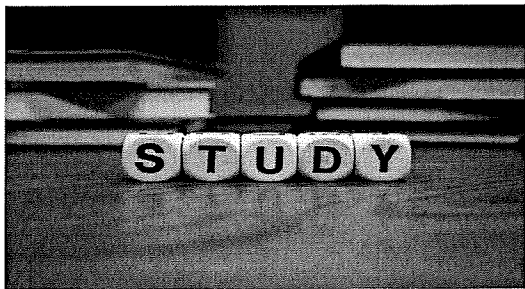

Students may borrow library books from my classroom. Independent reading is encouraged after all text work is complete. We ask that books are treated with care and respect while out of our library. Please return the books by the due date so that others may enjoy them too.

Grading for this course will be PASS (S) or FAIL (I or U). An I or U in any class will keep a student off the Honor Roll in the Junior High grades.

I am looking forward to a great year, full of study skills, reading strategies, and test taking skills to discover!

Mrs. Nicole Andres

Study Skills

The Study Skills course is designed to provide students with the strategies and tools necessary for academic success. Emphasis will be placed on developing effective study habits, organizational skills, note-taking techniques, test-taking strategies, and critical reading and thinking skills. The course also supports the development of independent learning and fosters an appreciation for it as a lifelong skill.

Course Materials

Students are required to bring the Simple Solutions: Study Skills text and a designated Study Skills folder to each class. Assignments will be completed regularly, and any work not finished during class will be assigned as homework and must be submitted by the following class session.

Assessment and Grading

Evaluation for this course will be on a Pass (S) / Fail (U) basis. Failure to meet expectations may impact eligibility for academic recognition and honors.

Course Objectives

- Develop effective study and organizational skills
- Strengthen reading comprehension and critical thinking strategies
- Practice research and writing techniques
- Apply test-taking strategies to improve performance
- Cultivate independent reading habits

This course is intended to build a foundation of skills that support academic achievement across all subject areas while fostering a lifelong commitment to learning.

We are looking forward to a productive year of growth, learning, and the development of strong study skills!
